An App-based Platform

CXO Genie App is a platform, that the forum uses to leverage the power of Technology and enabling solutioning within 15 Mins (And By the way, we have built it with the belief that even Hiring a Candidate should be a 15 Mins thing!)

While the App packs in a lot of technology, below are some top features and benefits:

CXO Genie App is very good. We can post subject wise queries, and go back to refer all responses with respect to that particular query. Whenever we have some important query we can also post there. It may be easy at a later date to refer.

Radha Ramanujan, CFO - Ashirwad Pipes

I have had a couple of things for the CXO Genie App, first the job portal - a lot of people approach you for the job, you can really refer them through this App. Find a specialist - in your professional life you always look for a specialist and this is a unique feature which you have in this. And SAARTHI who can work with you and help you to achieve what you want.

Genies Speak

Extremely happy to be part of the CXO Genie Group. The Model is quite interesting. It is not only helps in networking but also helps in day-to-day business aspects. There are various benefits that the Forum provides - the kind of exposure to different discussion topics, great way of networking and making friends, flywheel response to queries and lot more.

Venkatesh Tarakkad, CFO - DealShare

Think Cmo Genie Forum Makes It A Great Authentic Place Where You Can Speak Your Mind, And You Can Really Contribute To The Others. While You Can Also Grow By Just Looking At What Others Have To Share In Terms Of What They're Doing In Their Field, Or Their Views In General In The World Of Marketing, That's What Makes It Unique For Me.

Vikram Garga, Head, Marketing (APMEA) - Apollo Tyres

I'm so glad I joined CXO Genie. The MasterClass Series and interactive community have been invaluable for my professional growth. The diverse network of professionals has allowed me to learn from different perspective and expand my knowledge.

Monica Mudgal, Senior VP & Head HR - HealthKart

One good thing that I have found on CXO Genie platform is everybody's willing to help and contribute. I guess that's the power of this platform. You have quick resolution from peers, learnings across various industries and professional advice from most talented brains.

Smita Agarwal, Group CFO - Anarock

CXO Genie is a very unique platform where the members get access to a very focused WhatsApp & the APP platform where they exchange ideas and information which are very accurate. Also the in-person meetings are informal, to the point, and build a right camaraderie between the CXOs.

Ashish Anand, CHRO - SAR Group

The CXOverse feature on the website is a great repository and give flexibility to members to refer to anytime!

Monaz, Nobel CFO - Novartis

Almost every Saturday there is a presentation by someone who is an expert in his or her own area of expertise. And I find that, from attending these sessions, one can really learn.

Sujatha V Kumar, Head of Marketing - Visa

CXO Genie gives us almost a single sort of location where you get a wide-ranging array of very substantive information from well recognised and experienced individuals which is very helpful and that's really the power of CXO Genie!
